Declaration of participation

If you are interested to follow the progress of ReSource, become a member of the open M I N E C network. As a member you will be informed continuously about the project as well as other activities in the fascinating post-mining world.

ReSource Newsletter

In first issue of Resource Newsletter you can also find more about ReSource project, what happened at the conference Opportunity: Post-Mining Landscape, what is the role of research within the project and where young people see tourism opportunities in mining regions.

Scientific Symposium

Leibnitz institute of Ecological and Regional Development (IOER) Dresden will host Scientific Symposium There is a Life After Mining (How European Mining Regions Make Use of Their Potentials). Do not miss: 27th October in Euregia fair in Leipzig.
